

# Johnson Gillies Limited

CHARTERED BUILDING SURVEYORS & BUILDING CONSULTANTS

## QUALITY • SERVICE • VALUE

### THE FIRM

The family firm of Johnson Gillies has over 25 years of experience providing an unbeatable service with specialization, quality and value being the keys to our professional success.

You are assured that when you employ Johnson Gillies you receive the benefits of a dedicated and enthusiastic team on your projects.

Our core skill as Building Surveyors enables a practical approach to bring together the disciplines of legal requirements, design and engineering.

Our traditional approach and long period of training, continuing professional development & commit-

ment to our staff, with progress towards the Investors In People Award, and practical expertise provide the best overview of property problems to enhance value and provide advice on both latent and patent problems.

### SCOPE OF ADVICE

We provide a positive approach to property identifying issues, assessing their effect and identifying a solution.

- We have developed our service to provide bespoke response to specific problems and tailor our advice accordingly.
- Our private clients demand a high level of service with our experience of top quality property available to assist their needs.
- Our commercial clients want added value to minimize delay and maximize their benefits.

We have particular expertise in providing surveys for a variety of reasons but particularly relating to high quality residential premises.

Our surveyors have been involved in property transactions on some of the highest value residential building in the world.

Similarly we are retained by many commercial organisations to assist them in their various property transactions and needs.
